Please note:

This is just a suggested running order and is in no way meant to be prescriptive of what each location should be doing at each moment of the evening. However the highlighted sections in **Green** would be the parts of the evening that all locations would be encouraged to take part in at the same time in order to bring a greater sense of unity across the nation.

E.g. in this suggested running order there is opening worship at 17:10 It may be better for young people to play a game instead. Local location leaders and teams know their young people best and are encouraged to craft their own running order based on their local knowledge and experience of what works best for the young people that regularly attend their events.
